

## 2020 Publication Fees

PNAS depends, in part, on the payment of publication fees to finance its operations. Papers are accepted or rejected for publication and published solely on the basis of merit. Authors are assessed the following fees:

*Regular research articles:* \$1,590 per article up to 6 pages, with no additional fees for color figures or SI. Any fraction of a page over 6 and up to 9 will cost an additional \$375 per page, and any fraction of a page over 9 and up to 12 will cost an additional \$500 per page. Articles longer than 12 pages are not permitted.

Up to 6 pages	\$1,590
7 pages	\$1,965
8 pages	\$2,340
9 pages	\$2,715
10 pages	\$3,215
11 pages	\$3,715
12 pages	\$4,215

*Brief Report articles:* \$2,200 per article, with no additional fees for color figures, SI, or open access. All Brief Report articles are published open access.

*Open access:* Authors of research articles may pay a surcharge to make their article freely available through the open access option. All articles are free within 6 months of publication. Corresponding authors from institutions with current-year site licenses will be assessed a discounted open access fee of \$1,300 (compared to our regular fee of \$1,700) for a Creative Commons Attribution-NonCommercial-NoDerivatives (CC BY-NC-ND) license. The Creative Commons Attribution (CC BY) license is available for authors whose funders or institutions require it, for a fee of \$2,200.

Publication charges may be paid by credit card, check, or wire transfer. On receipt of the publication estimate, authors may log into the author billing system to review their charges.
