

PNAS

A Diverse and Comprehensive
Multidisciplinary Research Journal

www.pnas.org

PNAS

WHO WE ARE

The *Proceedings of the National Academy of Sciences* (PNAS), the official journal of the US National Academy of Sciences, is an authoritative source of high-impact, original research that broadly spans the biological, physical, and social sciences. The journal is published daily online and in weekly issues.

The National Academy of Sciences is an honorific society comprising approximately 2,380 members and 485 foreign associates, of whom approximately 190 are Nobel laureates. New members are elected annually in recognition of their distinguished research achievements, and election is considered one of the highest honors that can be accorded a scientist or engineer. All papers published in PNAS have the seal of approval of an Academy member.

READERSHIP

Impact factor of **9.5** for 2017

5-year impact factor of **10.4**

Eigenfactor of **1.1** for 2017

Circulation of **5,400**

Subscribers in **58** countries

Free online access in **123** developing countries

PNAS published nearly **25,000** pages of high-impact research in 2018

Articles published **daily** and issues published **weekly**

EASILY BROWSE THE LATEST PORTALS: HIGH-PROFILE PNAS CONTENT IN SPECIFIC AREAS

PNAS portal sites contain a wealth of information: research articles, Front Matter content, Commentaries, Perspectives, Letters, Special Features, Science Sessions podcasts, and additional topical resources and RSS feeds. Access all PNAS portals at www.pnas.org/page/about/topic-collections.

SCIENCE

ARTICLE AND JOURNAL METRICS

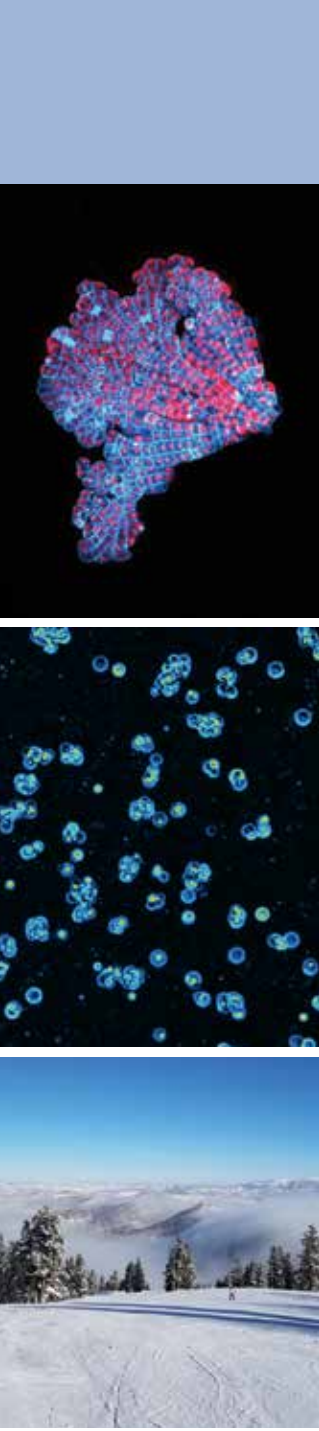

Many metrics, largely citation-based, exist or are being developed to measure the impact of journals and journal articles. Article-level metrics data and article downloads are available for all PNAS articles.

Article-level metrics measure the reach and impact of an article by tracking the mentions it receives online. The data can be found in a tab near the top of each article. Clicking on the tab will reveal a summary of mentions of the article across news sites, blogs, social media, and other online sources—which are visualized in a colorful icon, or “badge.” The number in the middle of the badge is the Altmetric score, which is based on the volume, type, and author of the mentions. Article downloads by month and by article format appear below. Users can click on the badge or “See more details” to explore the individual mentions from each source in detail. For more information about PNAS article- and journal-level metrics, visit www.pnas.org/page/about/metrics.

SIGN UP FOR PNAS EMAIL ALERTS

Sign up for free PNAS Alerts to receive electronic Tables of Contents (eTOCs); RSS feeds by classification or by article type; alerts on specific topics, authors, or articles; or notices when PNAS podcasts and other nonresearch content publish online. Visit www.pnas.org/alerts.

PNAS

PNAS receives more than 13 million article accesses per month, and all articles are available free online within 6 months. PNAS is abstracted and/or indexed in, for example: CABI, Chemical Abstracts Service, EBSCOhost, Elsevier Scopus, Gale, H. W. Wilson, Index Medicus, Journal Watch, JSTOR, OCLC, ProQuest, Psychological Abstracts, PubMed, PubMed Central, RePEc, SCI, and Clarivate Analytics BIOSIS, and Current Contents.

PNAS OFFERS FREE ACCESS TO:

- PNAS Front Matter magazine content
- PNAS Journal Club blog
- Science Sessions, the PNAS podcast program
- In This Issue article summaries
- Colloquia
- Special Features
- Corrections and Retractions
- PNAS Classics
- Supporting information
- Email alerts: daily or weekly Latest Articles, Tables of Content (eTOCs), and PNAS announcements
- Custom research profile alerting
- Back issues free 6 months after issue publication, dating back to 1915
- Cover image gallery

PNAS ALSO INCLUDES THESE FEATURES:

- Interjournal linking from an article in PNAS to the free full text of a cited reference
- Cross-journal searching
- Viewable references coordinated to MEDLINE abstracts
- References downloadable to citation managers
- Special collections of papers at a glance: Colloquia, Commentaries, Editorials, Inaugural Articles, Perspectives, Profiles, QnAs, Reviews, and Special Features
- Improved readability through new formatting, better positioning of content, and more accessible links
- Print issues and covers available for purchase via print-on-demand
- Single articles available (\$10 each) or site access for 7 days (\$25)

FOR AUTHORS

DIRECT SUBMISSION

PNAS is one of the most highly cited multidisciplinary science journals, with an impact factor of 9.5 and an Eigenfactor of 1.1 for 2017. Direct Submission is the primary and preferred route for publication in PNAS.

When you choose Direct Submission, the PNAS Editorial Office oversees the review process, and you can

- streamline the process by uploading a single combined manuscript PDF file at initial submission;
- submit directly to PNAS online at www.pnascentral.org without needing an Academy member to sponsor your paper;
- track your manuscript's progress online;
- receive a first decision in an average of 22 days; and
- have your paper published online in as few as 4–5 weeks after acceptance.

OPEN ACCESS

Choose open access and make your PNAS article freely available immediately upon publication.

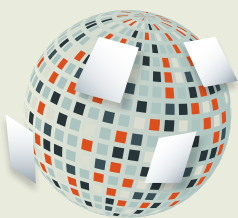

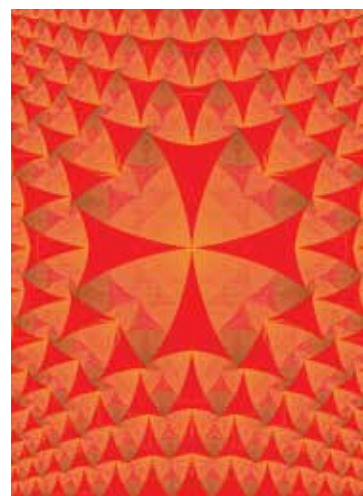

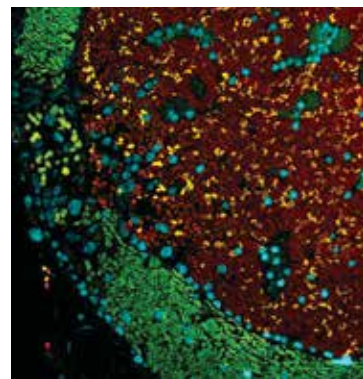

- 35% of authors choose open access
- Authors at an institution with an active site license pay a discounted price to make their papers immediately free online
- CC BY-NC-ND and CC BY licenses are available

BRIEF REPORTS

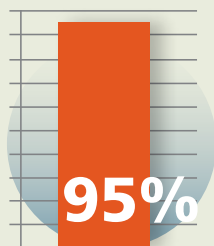

Brief Reports describe observations of immediate impact, receive rapid review, and are limited to 2,000 words or 15,000 characters.

FLEXIBLE ARTICLE LENGTH

In July 2019, as part of an effort to make the submission and publication process easier for authors, the preferred length of PNAS articles will remain at six pages, but PNAS will eliminate strict page limits; will eliminate the PNAS Plus article category; and will allow flexible article length limits up to a maximum of 12 pages.

Submissions are welcomed from researchers all over the world.

95% of submitted papers are Direct Submissions.

PNAS is committed to transparency in its editorial review process. See www.pnas.org/page/authors/author-faq

All articles are evaluated solely on their scientific merit by peers—not by staff editors.

EDITORIAL BOARD

All papers in PNAS are evaluated by an editorial board of expert Academy members in one of the following disciplines:

Animal, Nutritional, and Applied Microbial Sciences
Anthropology
Applied Mathematical Sciences
Applied Physical Sciences
Astronomy
Biochemistry
Biophysics and Computational Biology
Cellular and Developmental Biology
Cellular and Molecular Neuroscience
Chemistry
Computer and Information Sciences
Economic Sciences
Engineering Sciences
Environmental Sciences and Ecology
Evolutionary Biology
Genetics
Geology
Geophysics
Human Environmental Sciences
Immunology and Inflammation
Mathematics
Medical Genetics, Hematology, and Oncology
Medical Physiology and Metabolism
Microbial Biology
Physics
Physiology and Pharmacology
Plant Biology
Plant, Soil, and Microbial Sciences
Psychological and Cognitive Sciences
Social and Political Sciences
Sustainability Science
Systems Neuroscience

For a complete list of Editorial Board members, visit: www.pnas.org/page/about/editorial-board

.

PNAS IN THE NEWS

The PNAS Media and Communications Office provides:

- This Week in PNAS summaries of articles with broad scientific appeal
- Eye-catching images from newly published PNAS research
- Weekly Tipsheets alerting media to upcoming PNAS research papers
- 24-hour electronic access to advance copies of PNAS articles for the media through www.EurekaAlert.org
- Notifications about PNAS research to the authors' institutional media officers

PNAS FRONT MATTER

Check out the expanded front section of PNAS written at a level for general discussion, tackling the stories of science from new perspectives. Free content includes Opinion pieces, News Features, explorations of the intersection of Science and Culture, a look at the Inner Workings of researchers, Core Concepts primers, timely podcasts interviews, and the PNAS Journal Club blog. Also available are Profiles, QnAs, Retrospectives, and more. Visit the expanded front section of PNAS at frontmatter.pnas.org.

COZZARELLI PRIZE

Each year, PNAS selects six outstanding articles to receive the Cozzarelli Prize in recognition of their scientific excellence and originality. Winners are selected from the research articles published in PNAS throughout the year and represent exceptional contributions to the six broadly defined classes under which the National Academy of Sciences is organized. Podcasts and video presentations with past winners are available at www.pnas.org/page/about/cozzarelli-prize.

SUBSCRIPTIONS

WORLDWIDE SUBSCRIPTIONS

The Americas	47%
Asia-Pacific	29%
Europe	23%

PROFESSIONAL BREAKDOWN OF SUBSCRIBERS

Ph.D. & Research Universities	77%
Undergraduate & Master's Universities	16%
Corporations	6%
Nonresearch Institutions	1%

DEVELOPING COUNTRIES

PNAS provides free and immediate access to content in 123 countries worldwide. PNAS is committed to providing broad access to current scientific research across many fields and to fostering globalization of research tools and advances. To further our commitment to the global and affordable dissemination of scientific content, PNAS participates in Research4Life (which includes HINARI, AGORA, OARE, and ARDI), eJDS, and EIFL.
