WHO WE ARE

The Proceedings of the National Academy of Sciences (PNAS) has been at the forefront of scientific research for over a century. Established in 1914 as the official journal of the US National Academy of Sciences, PNAS is now one of the largest and most-cited multidisciplinary scientific journals in the world, with a global readership and more than 3,600 research articles published annually.

PNAS is edited by members of the National Academy of Sciences (NAS), a private, nonprofit society of distinguished scholars. Scientists are elected by their peers to membership in the NAS for outstanding contributions to research. Nearly 500 members of the NAS have won Nobel Prizes. The NAS is committed to furthering science in America, and its members are active contributors to the international scientific community.

READERSHIP

Impact factor of 9.58 for 2018
5-year impact factor of 10.6
Eigenfactor of 1.02 for 2018
Circulation of 5,400
Subscribers in 55 countries
Free online access in 124 developing countries

PNAS published nearly 25,000 pages of high-impact research in 2018
Articles published daily and issues published weekly

PNAS PORTALS: YOUR GATEWAY TO CUTTING-EDGE RESEARCH

Subject-specific portals provide easy access to the latest research in select high-profile fields, along with articles that put the work into context, such as Commentaries, Perspectives, and science news. The Classics portal and the Teaching Resources portal allow students and instructors to discover more than 100 years of award-winning and seminal PNAS research. The Front Matter portal features in-depth science news, opinions, core concept primers, and more. Explore the PNAS portals at pnas.link/portals.

ARTICLE AND JOURNAL METRICS

As a signatory of DORA, PNAS is invested in improving the evaluation of scholarly research outputs. Accordingly, we provide a wide range of article- and journal-level metrics to help librarians and researchers evaluate the quality of the journal and the articles we publish.

Journal metrics
Current Eigenfactor, Impact Factor, CiteScore, h5-index, and other journal-level metrics are available at pnas.link/metrics.

Article metrics
Citations, Altmetric scores, article downloads, and other article-level metrics are available on each article’s “Info & Metrics” tab. The Dimensions and Altmetric tools provide added richness to this data:

- The Dimensions tool tracks article citations and allows readers to explore individual citations in depth.
- The Altmetric tool assigns an Altmetric score to each article based on news stories, blog posts, social media mentions, and other online discussion of the article. Readers can use Altmetric to explore individual sources in depth.

SIGN UP FOR FREE PNAS EMAIL ALERTS

Subscribers to PNAS alerts receive electronic Tables of Contents (eTOCs); alerts on specific topics, authors, or articles; or notices when PNAS podcasts and other nonresearch content publish online. Sign up for free at pnas.link/alerts.
FOR AUTHORS

WHY SUBMIT TO PNAS
PNAS welcomes Direct Submissions from top researchers worldwide at pnascentral.org. In 2018, nearly two-thirds of our authors were based outside the United States, reflecting the global nature of high-impact scientific research.

PNAS is format-neutral at first submission. No need to reformat text, references, and figures at initial submission. Submit just a single PDF.

PNAS has rapid turn times. The average time to first decision is 21 days; articles are published as soon as 4–5 weeks after acceptance.

All submissions are evaluated by a member of the National Academy of Sciences. As the official journal of the National Academy of Sciences, all PNAS papers are edited by members of the NAS, not by professional staff.

OPEN ACCESS
Authors who choose the PNAS open access option can have their articles made available without cost to the reader immediately upon publication. Learn more at pnas.link/open.

• In 2018, 36% of authors chose open access
• CC BY-NC-ND and CC BY licenses are available
• PNAS satisfies green open access requirements
• Corresponding authors from institutions with current-year site licenses pay a discounted open access fee

BRIEF REPORTS
New in 2019, Brief Reports describe observations of immediate impact that hold potential to initiate new avenues of research, provide compelling new data on controversies of broad interest and long-standing questions, or present a concise conceptual advance. Brief Reports are open access and are published on an accelerated schedule. Learn more at pnas.link/brief.

FLEXIBLE ARTICLE LENGTH
With our new flexible article lengths, PNAS articles may range up to 12 pages in length, and authors only pay for the pages they use. Learn more at pnas.link/flex.

EDITORIAL BOARD
Every submission to PNAS is evaluated by a member of the National Academy of Sciences. The PNAS Editorial Board is composed of NAS members with expertise in the following disciplines:

Animal, Nutritional, and Applied Microbial Sciences
Anthropology
Applied Mathematical Sciences
Applied Physical Sciences
Astronomy
Biochemistry
Biophysics and Computational Biology
Cellular and Developmental Biology
Cellular and Molecular Neuroscience
Chemistry
Computer and Information Sciences
Economic Sciences
Engineering Sciences
Environmental Sciences and Ecology
Evolutionary Biology
Genetics
Geology
Geophysics
Human Environmental Sciences
Immunology and Inflammation
Mathematics
Medical Genetics, Hematology, and Oncology
Medical Physiology and Metabolism
Microbial Biology
Physics
Physiology and Pharmacology
Plant Biology
Plant, Soil, and Microbial Sciences
Psychological and Cognitive Sciences
Social and Political Sciences
Sustainability Science
Systems Neuroscience

For a complete list of Editorial Board members, visit pnas.link/board.

PNAS IN THE NEWS
The PNAS Media Office provides:
• Weekly tipsheets alerting media to upcoming PNAS research papers
• 24-hour electronic access to advance copies of PNAS articles for the media through EurekAlert!
• Notifications about PNAS research to authors’ institutional media officers
• This Week in PNAS: plain language summaries of articles with broad scientific appeal
• Eye-catching images from newly published PNASresearch

PNAS FRONT MATTER
PNAS Front Matter is written at a level for general discussion, tackling the stories of science from new perspectives. Front Matter content includes Opinion pieces, News Features, Science and Culture, a look at the Inner Workings of researchers, Core Concepts primers, timely podcast interviews, and the PNAS Journal Club blog. Also available are Profiles, QnAs, Retrospectives, and more. Visit Front Matter at pnas.link/frontmatter.

COZZARELLI PRIZE
Each year, PNAS selects six outstanding articles to receive the Cozzarelli Prize in recognition of their scientific excellence and originality. Winners of this prestigious prize are selected from the research articles published in PNAS throughout the year and represent exceptional contributions to the six broadly defined classes under which the National Academy of Sciences is organized. Learn more at pnas.link/cozzarelli.

Receive PNAS RSS feeds by article type, classification, current issue, latest articles, most-frequently read articles, most-frequently cited articles, podcasts, and PNAS media selections.
USAGE STATISTICS

PNAS offers monthly COUNTER-compliant usage statistics for all institutional subscribers. Account administrators can retrieve usage reports directly from PNAS or through the SUSHI protocol.

DEVELOPING COUNTRIES

PNAS provides free and immediate access to PNAS content in 124 developing countries worldwide. We are committed to providing access to current scientific research and to fostering the globalization of research tools and scientific advances. PNAS participates in Research4Life (which includes Hinari, AGORA, OARE, and ARDI), eJDS, and EIFL. For more information, visit pnas.link/developing.
